PLACEMENT PREPARATION COMMITTEE

About the Company

PwC AC India, part of the global PwC network spanning offices across 149 countries and serving 86% of Fortune 500 Global companies, is a leading professional services powerhouse delivering Advisory, Assurance, Tax, and Business Services. Backed by an over 370,000 strong community of solvers globally that recorded gross revenues of US $56.9 billion in FY25, PwC AC India operates as an innovation hub with 38,000+ professionals across Kolkata, Bangalore, Gurugram, Hyderabad, Mumbai, Chennai, Coimbatore, Pune, Noida, and Jaipur. Driven by its purpose to build trust in society and solve important problems, and guided by core values to act with integrity, make a difference, care, work together, and reimagine the possible, it brings together diverse skills and digital capabilities across cloud, cyber, analytics, and business applications consulting to solve complex business issues, optimize operational efficiency, and empower global client transformation. Recognized as a Great Place to Work and recipient of Brandon Hall Group Excellence Awards 2025, it serves multiple members across the PwC global network. Read More

Services and Solutions Offered

1. **Advisory**
    - **Strategy, Consulting & Technology Transformation:** Drives change by developing strategies from concept to market, spotting emerging trends, and leveraging technology to execute cross-functional business transformation. Integrates AI Transformation Strategy, Generative AI frameworks, Data and Analytics, and Digital Integration to power data-driven decision-making.
    - **Deals & Capital Markets:** Delivers strategic M&A advisory across buy-side and sell-side transactions, valuations, diligence, capital raising, joint ventures, and post-merger integration.
    - **Operational Modernization:** Re-engineers supply chains, sourcing, and shop floors through Digital Engineering and Manufacturing, alongside specialized advisory for Global Capability Centres (GCCs) and Entrepreneurial and Private Business.

PLACEMENT PREPARATION COMMITTEE

2. **Assurance**
    - **Financial Statement Audits & Corporate Reporting:** Builds trust and confidence by helping organizations improve external financial reporting and adapt to shifting regulatory changes.

- **Digital Assurance & Internal Audit:** Conducts tech-enabled risk assessments, controls testing, and IT attestation to strengthen corporate governance and data integrity.
- **Sustainability Assurance:** Delivers independent verification and ESG reporting assurance to help enterprises track, measure, and validate non-financial disclosures.

3. **Tax**
    - **Regulatory Guidance & Compliance:** Offers expert guidance and insights to navigate complex tax regulations and make informed decisions, covering direct taxes, indirect taxes (GST, customs), and global tax administration.
    - **Transfer Pricing Solutions:** Designs and defends compliant pricing models and economic analyses for complex multinational operations and cross-border transactions.
    - **Tax Managed Services & Tax Academy:** Combines operational compliance outsourcing and controversy management with specialized executive learning programs via the Tax Academy.

4. **Business Services**
    - **Human-Led, Tech-Powered Internal Expertise:** Deploys dedicated functional experts across marketing, HR, technology, knowledge, and finance to transform operational concepts into scalable solutions.
    - **Enterprise Infrastructure & Enabling Systems:** Drives organizational performance through core HCM platforms (e.g., Workday), business intelligence, and cloud application enablement.
    - **Managed Services & Alliances:** Operates critical enterprise support functions and leverages strategic technology partner ecosystems to ensure scalable delivery and operational efficiency.

5. **8 Advisory Platforms in brief**
    - **Business & Supply Chain Operations (BSCO):** Sector ops, manufacturing, procurement, logistics.
    - **Commercial & Service Excellence (CSX):** Customer, marketing, and service transformation.
    - **Cloud Engineering, Data & Analytics (CEDA):** Cloud, AI, and custom app scaling.
    - **Cyber, Data & Tech Risk (CDTR):** Proactive threat defense, risk, and compliance.

PLACEMENT PREPARATION COMMITTEE

- **Deals:** End-to-end M&A lifecycle, diligence, valuations, and post-deal transformation.
- **Strategy:** Corporate, technology, and operational strategy.
- **Risk & Regulatory:** Financial crimes, healthcare, and risk managed services.
- **Digital Core Modernization (DCM):** Enterprise ERP platforms (SAP, Oracle, Workday).

PLACEMENT PREPARATION COMMITTEE

Business Values:

Across PwC, these five core values are consistently emphasized:

1. **Act with Integrity**
    - Speaking up for what is right, even when it's difficult
    - Delivering the highest quality and acting as though your reputation is at stake

2. **Make a Difference**
    - Making a positive impact for colleagues, clients, and communities
    - Staying curious and agile in an ever-changing environment

3. **Care**
    - Recognizing and valuing everyone
    - Supporting others' growth and enabling them to contribute their best

4. **Work Together**
    - Collaborating across boundaries, sharing knowledge and feedback
    - Embracing diverse perspectives to strengthen outcomes

5. **Reimagine the Possible**
    - Challenging the status quo with bold ideas
    - Innovating, experimenting, and learning, even from failure

Financials:

Global Performance and Strategic Investments (FY25 Snapshot)

For FY25 (ending 30 June 2025), PwC achieved record gross revenues of US $56.9 billion (up 2.7% in local currency), driven by Advisory at US $24.4 billion, Assurance at US $19.8 billion, and Tax and Legal at US $12.7 billion. The network employs over 364,000 professionals across 137 territories, serving 82% of the Fortune Global 500. PwC invested US $3.1 billion globally, including nearly US $1.5 billion dedicated to scaling AI capabilities through assets like Agent OS, a Microsoft AI agent alliance, and its US $1 billion AI-enabled Next Generation Audit platform. Strategic alliances with innovators like OpenAI, Anthropic, AWS, and Google Cloud, alongside upskilling 315,000 employees through the Network AI Academy, underpin the firm's push into the Intelligence Age.

Aggregated revenues of PwC network (US$ millions)

	FY25 AT FY25 exchange rates	FY24 AT FY24 exchange rates	% change	% change at constant exchange rates
Gross revenues	56,968	55,381	2.9%	2.7%
Expenses and disbursements on client assignments	(2,515)	(2,502)	0.5%	0.5%
Net revenues	54,453	52,879	3.0%	2.8%

Revenue by Region

- Revenues were up by 5.5% across the Americas to US$25.5 billion including strong revenue growth in the US and Brazil.
- Revenue rose by 2.5% in Europe, Middle East and Africa (EMEA) to US$22.5 billion including particularly strong growth in Central and Eastern Europe and Spain.
- In Asia Pacific, revenue rose strongly in a number of countries such as Japan, India, and South Korea, though revenues in the region as a whole declined 4.1% to US$8.8 billion.

Aggregated gross revenues of PwC firms by line of service (US$ millions)

	FY25 AT FY25 exchange rates	FY24 AT FY24 exchange rates	% change	% change at constant exchange rates
Advisory	24,386	23,308	4.6%	4.5%
Assurance	19,846	19,475	1.9%	1.7%
Tax and Legal	12,736	12,598	1.1%	1.0%

Qualitative Review of Global Financial Performance

PwC delivered broad-based growth across all primary service lines, demonstrating resilient client demand for multi-disciplinary expertise despite persistent macroeconomic volatility and geopolitical pressures. Advisory remained the core revenue engine, propelled by high-value cloud modernizations, operational turnarounds, and a strategic expansion of alliances with global technology leaders, alongside a doubling of its managed services business. Assurance sustained dependable momentum by scaling digital trust initiatives, expanding non-financial and ESG reporting capabilities, and deploying modern artificial intelligence workflows across the statutory audit lifecycle. The Tax and Legal practice experienced steady demand underpinned by escalating global regulatory complexity, cross-border M&A consulting, Pillar Two international tax compliance mandates, and organizational restructuring designed to integrate AI-ready operating models. Geographically, performance reflected strong localized expansion across core territories like the United States, Brazil, and major Asian markets, supported by aggressive enterprise-level reinvestment into proprietary AI platforms, strategic acquisitions, and workforce upskilling to preserve the network's market leadership.

PLACEMENT PREPARATION COMMITTEE

Strategic Development:

- **Strategic Investment & Workforce Expansion (The New Equation)**
  Under its growth strategy, The New Equation, PwC committed an investment of over INR 1,600 crore to expand its Indian practice, creating 10,000+ additional jobs focused on Digital, Cloud, Cyber, Analytics, and Emerging Technologies. To sustain leadership in talent development, the firm committed to increasing campus hiring by over 5x, dedicating at least 1% of revenues to continuous upskilling, and targeting a minimum of 40% gender diversity. Read More

- **Enterprise AI & Strategic Alliances Ecosystem**
  PwC has shifted client transformation from isolated tech implementations to scalable, AI-native architectures using its Agentic Blueprint (reusable in-house agents, human review gates, and Responsible AI guardrails). Through strategic alliances with Microsoft (Azure OpenAI, Copilot), Salesforce (Agentforce), Google Cloud, AWS, SAP, and Oracle, PwC deploys enterprise-grade generative AI and modern cloud architectures that shorten delivery cycle times and drive front-to-back-office integration. Read More

- **Reinvention vs. Macro Disruption (CEO Survey: India Perspective)**
  PwC's Annual Global CEO Survey reveals that 87% of India CEOs express confidence in domestic growth, significantly outpacing their global counterparts. However, technological disruption has emerged as the foremost strategic threat, with more than half of Indian executives actively recalibrating business models and embedding generative AI into operations to maintain long-term economic viability and regulatory compliance (such as the DPDP Act). Company Case Studies:

- **Formula 1 - Rewiring the future of race operations**
  PwC worked with Formula One Management (F1) as its Official Consulting Partner to transform race operations across a record 24 global races, replacing unwritten know-how with a scalable, repeatable operating system. The team embedded trackside alongside F1 crews and leveraged custom AI tools to cut documentation time by four to eight weeks, mapping and standardizing over 65+ mission-critical processes and subprocesses. The engagement established a resilient operations model anchored across six enablers (inventory tracking, asset lifecycle management, field workflow tech, digital knowledge, governance, and human capital), supporting a 20% reduction in F1's future race operations footprint and reengineering 1M miles of multi-modal freight toward ocean shipping to meet vital sustainability commitments. Read More

- **Hershey's Trade Promotion Management (TPM) Transformation**
  PwC worked with The Hershey Company to transform its enterprise-wide trade promotion management program, preparing the consumer goods giant for an upcoming SAP S/4HANA ERP upgrade. Addressing disparate, outmoded processes, the team designed and implemented a user-centric, cloud-based SAP TPM platform with in-memory databases capable of handling massive data aggregations across extensive product portfolios without user friction. Post-implementation, PwC's Managed Services team took over day-to-day platform operations via a dedicated one-team approach, automating complex master data hierarchy updates and reducing system operational incidents by >50%. The cloud solution delivered ~99.5% accuracy in trade investment forecasts, achieved a ~730 basis point improvement in trade spend efficiency, and streamlined front- and back-office operations to drive revenue growth management and higher customer ROI. Read More

- **Bristol Myers Squibb: Treasury Transformation Through Digital Automation**
  PwC worked with pharmaceutical giant Bristol Myers Squibb (BMS) following its acquisition of Celgene to activate its ambitious "Treasury Forward" initiative, merging two mature treasury functions into a unified, digital operation without disrupting ongoing financial workflows. Addressing disparate ERP systems, conflicting treasury software, and heavy execution loads across international treasury, global cash, and insurance functions, PwC helped design and implement 16 system and process harmonizations, alongside 50+ distinct automations and enhancement projects. By enabling straight-through processing for financial transactions, the engagement achieved a **~95%** reduction in data entry errors, generated **$5M+** in annual bank and liquidity optimization benefits,

PLACEMENT PREPARATION COMMITTEE

and automated thousands of hours of recurring annual effort, establishing an award-winning treasury infrastructure capable of scaling across subsequent acquisitions.
Read More

- **GE: Executing a Historic Three-Way Global Corporate Separation**
  PwC collaborated with industrial conglomerate General Electric (GE) to execute its historic corporate split into three independent, publicly traded industry leaders (GE HealthCare, GE Aerospace, and GE Vernova) without disrupting day-to-day business operations. Navigating a massive scope encompassing shared global functions, overlapping IT and digital architectures, complex international tax constraints, and shared balance sheet items, PwC co-managed more than 40,000 execution actions, completed 2,000 legal entity separations, and allocated over $4B in shared assets and liabilities. Leveraging proprietary algorithms to automate carve-out financial statements and SEC Form 10 filings, alongside automated contract review and metadata extraction tools, the engagement safely transitioned approximately 12,000 employees across 90+ countries and deployed 75 benefits and 95 payroll systems, establishing fit-for-purpose operational, legal, and capital frameworks that positioned each independent entity for market leadership and focused growth.

PLACEMENT PREPARATION COMMITTEE

Deloitte.	Deloitte is the world's largest professional services network, operating across more than 150 countries with capabilities spanning Audit & Assurance, Consulting, Risk Advisory, Tax, and Financial Advisory. It drives large-scale enterprise transformation, cybersecurity, and cloud architecture through assets like Deloitte Digital, CortexAI, and deep tech alliances. In India, Deloitte operates extensive domestic practices alongside **Deloitte US-India (USI)** delivery offices, serving as a primary competitor to PwC Acceleration Centers across global consulting, risk, and technology engagements.
accenture	Accenture is a leading global professional services company operating across more than 120 countries with capabilities spanning Strategy & Consulting, Technology, Operations, Industry X, and Accenture Song. It drives large-scale enterprise transformation through advanced cloud architectures, cybersecurity, and generative AI platforms. In India, Accenture maintains extensive delivery engines through its Advanced Technology Centers (ATCI) and Capability Network, serving as a primary competitor to PwC Acceleration Centers in digital core modernization, supply chain, and end-to-end consulting.
IBM	IBM is a global technology and consulting leader operating across more than 170 countries, with capabilities centered on hybrid cloud, enterprise AI, cybersecurity, and business transformation. Through **IBM Consulting**, it delivers end-to-end industry solutions powered by **Red Hat OpenShift** and its generative AI platform, **watsonx**. In India, IBM operates extensive delivery networks through its **Client Innovation Centers (CIC)**, serving as both a major technology ecosystem partner and a direct competitor to PwC Acceleration Centers across cloud engineering, asset management, and digital transformation.

PLACEMENT PREPARATION COMMITTEE

CSR and Sustainability Initiatives:

Strategic Social Impact Pillars: Focuses initiatives across education and upskilling for underserved youth, environmental sustainability (afforestation, water conservation, and clean energy), community WASH (Water, Sanitation, and Hygiene) infrastructure, and emergency disaster relief and rehabilitation.

The PwC India Foundation: Executes social impact programs through its dedicated Section 8 non-profit arm, collaborating directly with grassroots NGOs, social enterprises, and local government bodies to deliver measurable, community-level interventions.

Skills-Based Employee Volunteering: Mobilizes the firm's professionals across Indian offices to contribute hands-on mentoring, digital literacy training, and pro bono advisory, aligning employee engagement with social empowerment.

Governance and Impact Accountability: Governed by a formal CSR Committee under Section 135 of the Indian Companies Act, 2013, ensuring rigorous project monitoring, independent third-party impact assessments, and complete reporting transparency across all funded programs.

Company News:

- **Advanced Innovation and Technology Hubs (AITH) & Vision 2030**
  PwC India opened an Advanced Innovation and Technology Hub (AITH) in Noida to establish tech-enabled delivery models and tap talent pools beyond traditional metros, with upcoming centres planned for Bhubaneswar and Kolkata. Aligned with its Vision 2030 roadmap, which targets tripling firm revenues, expanding to a 50,000-strong workforce, and adding 20,000 jobs, the hub acts as a next-generation centre of excellence integrating sector knowledge, digital assets, and execution discipline. This decentralised footprint strengthens delivery quality for complex enterprise transformation programs while contributing toward national initiatives like Viksit Bharat

- **Strategic Alliance with Leah for Enterprise Agentic AI**
  PwC India expanded its strategic alliance with Leah, an enterprise agentic AI company, to deliver large-scale business transformations powered by Leah's Agentic OS platform. The collaboration pairs PwC's industry and functional consulting capabilities with agentic architecture to shift enterprises from task-level automation toward hybrid human-AI taskforces. Focusing on domain-tailored agents across finance, HR, source-to-contract, and legal workflows, the partnership integrates agentic orchestration directly into existing enterprise systems (ERP, procurement, and finance) while embedding enterprise-grade governance, auditability, traceability, and human-in-the-loop oversight
  Read More

- **Fiscal Prudence and Operational Discipline**
  PwC in India reinforced a prudent operating approach aligned with broader calls for economic discipline and restraint, while reaffirming confidence in India's resilient medium-to-long-term growth. The firm instituted reviews on non-essential domestic and international travel, reserving business trips strictly for clear business needs, while leveraging its flexible working framework to maintain client service delivery, productivity, and employee wellbeing without operational disruption

Past Year Questions

HR-based Questions

- **Personal & Background**
    - Describe your background
    - Questions related to gap years (if any)
    - Where is the family?
    - What makes you unique?
    - How have you adjusted to the place?
- **Education & Career Path**
    - Why MBA?
    - Why did you shift from engineering to MBA and finance?
- **Career Goals & Motivation**
    - What are your long-term goals?
    - Why Finance?
    - Does this role align with your MBA goals?
    - Why this position?
    - Why this domain?
- **Skills & Personality**
    - What are your strengths and weaknesses?
    - What are your hobbies?
    - How did you overcome your biggest challenge yet?
- **Aspirations & Fit**
    - Which CnCs do you want to join?
    - Clarity of role?
    - Are you comfortable shifting to a new location?

PLACEMENT PREPARATION COMMITTEE

Technical Interview Questions asked to different candidates

- **BBA (Work Experience: 33 months)**
  - If two companies with the same EBITDA and EBITDA margin decide to merge, how would the consolidated balance sheet look like?
  - Explain the complete M&A deal cycle
  - Different stages and documents involved in the M&A process
  - Discussion on best project handled during work experience

- **BCA (Work Experience: 21 months)**
  - Six Sigma terminologies and applications
  - Value Chain concepts and framework
  - Warehousing concepts
  - Manufacturing concepts
  - Guesstimate questions
  - Business case discussions involving operations and consulting

- **B.Tech (Work Experience: 37 months)**
  - How would you consult TCS to move from a cost leadership strategy to an innovation or Blue Ocean strategy?
  - How would you implement an AI system to improve road quality in Bangalore?
  - Suggest 10 ways to improve the student experience at IIM Shillong
  - Digital transformation implementation framework
  - AI, GenAI, and Agentic AI applications
  - What is the EUR sector?

- **B.Tech + CFA Level I (Work Experience: 36 months)**
  - M&A case involving synergies in the automobile sector
  - SBI and associate banks merger case discussion
  - Synergies realized post SBI merger
  - Banking industry knowledge and concepts
  - Merger integration discussions

- **B.Com (Hons) (Work Experience: 24 months)**
  - What do you understand about the role and M&A?
  - Explain the deal-selling process for a business owner seeking to divest
  - Factors to consider while selling a business

PLACEMENT PREPARATION COMMITTEE

- Active Netflix users in India (Guesstimate)
- Pre-deal and Post-deal activities
- Audit testing of balances, Discussion on auditing procedures

- **B.Com + CFA Level I (Fresher)**
  - What do you know about M&A?
  - What is DDV (Deal Due Diligence Validation / Financial Due Diligence)?
  - How would you conduct Financial Due Diligence?
  - Which DDV phase would you prefer to work in and why?
  - Discussion on recent deals and acquisitions
  - Chandigarh Friday evening food delivery orders (Guesstimate)

- **B.Tech Mechanical Engineering (Work Experience: 35 months)**
  - Why Operations and Supply Chain Consulting?
  - AI use cases in Supply Chain Management
  - Guesstimate the business/revenue generated during Garba celebrations in Vadodara
  - Distribution center location optimization case
  - How to improve automotive after-sales service using AI?
  - Develop KPI-based frameworks for e-commerce decision-making
  - Manufacturing plant KPIs
  - Explain the Transportation Model used in Supply Chain Management

- **B.Tech Mechanical Engineering (Work Experience: 34 months)**
  - GTNL process and associated metrics
  - Forward supply chain and backward supply chain flows
  - Key operational metrics used in supply chains
  - Formula One technical questions:
    - Engine specifications
    - MGU-K
    - MGU-H, Race distance regulations

PLACEMENT PREPARATION COMMITTEE

- **B.Sc Economics (Fresher)**
  - Discuss the current global economic scenario
  - How does the global economy impact M&A activity?
  - Which sectors are likely to see increased deal-making activity?
  - Impact of interest rates, currency movements, and growth differentials on M&A

- M&A Case, Change management during post-merger integration
- Calculate EBIT margins for multiple acquisition targets
- Which acquisition target should be selected and why?
- Revenue synergies vs cost synergies, Expectations from a fresher in M&A advisory
- Integration timelines post-acquisition
- Explain the complete deal lifecycle, Understanding of PwC M&A practice
- How would you handle onboarding 200 employees after an acquisition?
